113TH CONGRESS  
2D SESSION

**H. R.** \_\_\_\_\_

To direct the Secretary of the Interior to carry out a study regarding the suitability and feasibility of establishing the Naugatuck River Valley National Heritage Area in Connecticut, and for other purposes.

\_\_\_\_\_  
IN THE HOUSE OF REPRESENTATIVES

Ms. DELAURO introduced the following bill; which was referred to the Committee on \_\_\_\_\_

\_\_\_\_\_  
**A BILL**

To direct the Secretary of the Interior to carry out a study regarding the suitability and feasibility of establishing the Naugatuck River Valley National Heritage Area in Connecticut, and for other purposes.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Naugatuck River Val-  
5       ley National Heritage Area Study Act”.

1 **SEC. 2. NATIONAL PARK SERVICE STUDY REGARDING**  
2 **NAUGATUCK RIVER VALLEY, CONNECTICUT.**

3 (a) FINDINGS.— Congress finds the following:

4 (1) The area that encompasses the Naugatuck  
5 River Valley of Connecticut has made a unique con-  
6 tribution to the cultural, political, and industrial de-  
7 velopment of the United States.

8 (2) The Naugatuck River Valley is comprised of  
9 14 communities along the Naugatuck River, which  
10 stretches for more than 40 miles from its head-  
11 waters in Torrington, Connecticut, to the confluence  
12 with the Housatonic River in Shelton. The 14 mu-  
13 nicipalities of Torrington, Harwinton, Litchfield,  
14 Plymouth/Terryville, Thomaston, Waterbury, Water-  
15 town, Ansonia, Beacon Falls, Derby, Naugatuck,  
16 Oxford, Seymour, and Shelton, share common his-  
17 torical elements, agricultural, trade, and maritime  
18 origins, similar architecture, common industries, an  
19 immigrant culture succeeding colonial beginnings,  
20 and a significant contribution to the war effort from  
21 the Revolutionary War to World War II. Most of  
22 these elements are still in evidence today.

23 (3) Three major industries drove the manufac-  
24 turing contribution of the Valley. As evidenced in  
25 the book, *The Brass Industry in the United States*,  
26 by William Lathrop, the brass industry was born in

1 Connecticut's Naugatuck River Valley and harnessed  
2 the power of the Naugatuck River and the skilled  
3 immigrant workers who arrived from Germany, Ire-  
4 land, Italy, and Poland.

5 (4) The Naugatuck River Valley also spawned  
6 the birth of the rubber industry in the United States  
7 when Charles Goodyear developed the vulcanization  
8 process in 1839. Together with Samuel Lewis, a  
9 wealthy industrialist from Naugatuck, Connecticut,  
10 Goodyear parlayed his innovation into establishing  
11 the U.S. Rubber Company, making Naugatuck the  
12 rubber capital of the world.

13 (5) The Naugatuck River Valley was also a  
14 major contributor to the success of the United  
15 States clock industry. Eli Terry designed inter-  
16 changeable parts for his clocks assembled in  
17 Terryville. Renowned clockmaker Seth Thomas  
18 began making the first of millions of clocks in  
19 Thomaston, Connecticut, in 1813. His company con-  
20 tinued until 1931 when it became a division of Gen-  
21 eral Time Corporation (Timex). Other important in-  
22 dustries included pens, evaporated milk, pianos and  
23 organs, corset stays, and cables.

24 (6) The Naugatuck River Valley has been a  
25 major contributor to the United States war efforts

1 from the American Revolution to the Civil War to  
2 World War II. In the 2007 PBS film “The War”,  
3 the story of the World War II directed and produced  
4 by Ken Burns and Lynn Novick, the City of Water-  
5 bury, Connecticut, was characterized as the “arse-  
6 nal” of the war effort because of its high concentra-  
7 tion of war industries.

8 (7) The Naugatuck River Valley has been home  
9 to many great authors, diplomats, inventors and pa-  
10 triots, such as David Humphreys, Aide-de-Camp to  
11 General George Washington and the first American  
12 ambassador; Commodore Isaac Hull, Commander of  
13 “Old Ironsides” during the War of 1812; Ebenezer  
14 D. Bassett, the country’s first black ambassador;  
15 Dr. John Howe, inventor of a pin making machine  
16 that made the common pin a household necessity;  
17 and Pierre Lallement, inventor of the modern two-  
18 wheel bicycle.

19 (8) The Naugatuck River Valley possesses a  
20 rich and diverse assemblage of architecturally sig-  
21 nificant civic, industrial and residential structures  
22 and monuments dating from Colonial times to the  
23 present. There are 88 structures in the Naugatuck  
24 Valley included on the National Register of Historic  
25 Places. The first law school in America was built in

1 Litchfield. Notable examples of the variety of archi-  
2 tecture found in the Valley include Robert Wakeman  
3 Hill's brilliantly designed Thomaston Opera House  
4 and Town Hall; H.E. Ficken's acoustically impres-  
5 sive Sterling Opera House in Derby, site of appear-  
6 ances by many nationally known performers; Water-  
7 bury's Clock Tower, designed by the renowned archi-  
8 tectural firm of McKim, Mead & White which also  
9 designed four buildings in Naugatuck; Henry Bacon,  
10 designer of the Lincoln Memorial and two structures  
11 in Naugatuck; and the Father McGivney Statue cast  
12 by Joseph Coletti of Boston to honor the  
13 Waterburian who founded the Knights of Columbus.

14 (9) The Naugatuck River Valley has been a  
15 melting pot for immigrant populations who have  
16 made significant contributions to the industrial, cul-  
17 tural, and economic development of the nation.

18 (10) In 2011, the *Naugatuck River Greenway*  
19 was designated one of 101 projects nationwide se-  
20 lected by the Secretary of the Interior under the  
21 *America's Great Outdoors* Initiative. This multi-sec-  
22 tor partnership aims to restore and enhance the  
23 river by completing the Naugatuck River Greenway,  
24 creating new public access to the river, and opening  
25 fish passages on the river.

1           (11) The Naugatuck River Valley possesses a  
2           group of public-spirited citizens dedicated to the  
3           preservation and promotion of the region's natural,  
4           historic, and cultural heritage, and a passionate re-  
5           solve to work together for the betterment of the Val-  
6           ley and its residents.

7           (b) STUDY.—

8           (1) IN GENERAL.—The Secretary of the Inte-  
9           rior shall, in consultation with the State of Con-  
10          necticut and appropriate organizations, carry out a  
11          study regarding the suitability and feasibility of es-  
12          tablishing the Naugatuck River Valley National Her-  
13          itage Area in Connecticut.

14          (2) CONTENTS.—The study shall include anal-  
15          ysis and documentation regarding whether the Study  
16          Area—

17                 (A) has an assemblage of natural, historic,  
18                 and cultural resources that together represent  
19                 distinctive aspects of American heritage worthy  
20                 of recognition, conservation, interpretation, and  
21                 continuing use, and are best managed through  
22                 partnerships among public and private entities  
23                 and by combining diverse and sometimes non-  
24                 contiguous resources and active communities;

1 (B) reflects traditions, customs, beliefs,  
2 and folklife that are a valuable part of the na-  
3 tional story;

4 (C) provides outstanding opportunities to  
5 conserve natural, historic, cultural, or scenic  
6 features;

7 (D) provides outstanding recreational and  
8 educational opportunities;

9 (E) contains resources important to the  
10 identified theme or themes of the Study Area  
11 that retain a degree of integrity capable of sup-  
12 porting interpretation;

13 (F) includes residents, business interests,  
14 nonprofit organizations, and local and State  
15 governments that are involved in the planning,  
16 have developed a conceptual financial plan that  
17 outlines the roles for all participants, including  
18 the Federal Government, and have dem-  
19 onstrated support for the concept of a national  
20 heritage area;

21 (G) has a potential management entity to  
22 work in partnership with residents, business in-  
23 terests, nonprofit organizations, and local and  
24 State governments to develop a national herit-

1           age area consistent with continued local and  
2           State economic activity; and

3           (H) has a conceptual boundary map that is  
4           supported by the public.

5       (c) BOUNDARIES OF THE STUDY AREA.—The Study  
6 Area shall be comprised of sites in Torrington, Harwinton,  
7 Litchfield, Plymouth/Terryville, Thomaston, Waterbury,  
8 Watertown, Ansonia, Beacon Falls, Derby, Naugatuck,  
9 Oxford, Seymour, and Shelton, Connecticut.

10       (d) SUBMISSION OF STUDY RESULTS.—Not later  
11 than 3 years after funds are first made available for this  
12 section, the Secretary shall submit to the Committee on  
13 Natural Resources of the House of Representatives and  
14 the Committee on Energy and Natural Resources of the  
15 Senate a report describing the results of the study.
